**RFR # M00B1400566
Questions and Answers
May 19, 2011**

1. This RFR looks very similar to M00B1400515 - Senior Systems Analyst released earlier this April. Is this a similar position or a rereleased RFR?

Re-release of M00B1400515 - position was not filled.

2. Does this position have an incumbent performing the work?

No, see above.

3. Is Senior Systems Analyst the only labor category that Master Contractors can send candidates under? If not, is there a chance to substitute this category with Sr. Information Technology Architect or System Design Architect (suggested categories fall under CATS II LC list)?

Candidates must be proposed in the subject labor category.

4. Can we use CATS II year pricing as the contract is expected to start after May 31, 2011?

Contractors have labor rates for each year of the CATS II contract. They should use the appropriate year as the basis for price proposals.

5. Can we submit more than one qualified resume?

No, one resume per contractor.
